

Senior Full-Stack Engineer with 7+ years building scalable web platforms using React, Node.js, and TypeScript. Experienced in leading feature development, mentoring engineers, and improving system performance across FinTech, EdTech, and B2B SaaS domains. Hands-on with spec-driven development (SDD), AI-assisted coding (Claude Code, Windsurf, Codex), and LLM evaluation. Available for Permanent (UoP) and B2B contracts.

Skills

Soft skills - Problem Solving • Adaptability • Active Listening • Code Review • Stakeholder Management • Mentoring

Frontend - JavaScript (ES6+) • TypeScript • React • Next.js • Redux • TanStack Query • HTML5 • CSS3 • TailwindCSS • styled-components • REST API integration

Backend - Node.js • Express • PostgreSQL • MySQL • Prisma • Authentication • WebSockets

DevOps & Tools - Git • CI/CD (GoCD, GitHub Actions, GitLab CI) • Docker • Vercel

Project Management - Jira • Confluence • Agile ceremonies • Scrum

Testing - Jest • React Testing Library • Playwright

Domain Knowledge - FinTech • EdTech • AI / ML Data & Model Evaluation • B2B SaaS • Remote-first / Distributed Teams Experience

AI Tools & Workflows - Claude Code • Devin (former Windsurf) • Codex • Spec-Driven Development (SDD) • AI-assisted coding • Prompt Engineering

Work experience

Godel Technologies Europe | Sr. Software Engineer

Łódź, Poland | 09.2021 - Current

- Led migration of a core client-facing module to React + TypeScript, reducing bundle size by 30% and improving Lighthouse performance score from 62 to 91.
- Migrated a price comparison platform to a new framework and design system, boosting page performance by 25% while preserving all existing functionality.
- Reduced page load time by 25% and cut critical production bugs by 40% through Jest/React Testing Library coverage and stricter code review process across a 5-person team.
- Mentored 2 mid-level engineers via pair programming and code reviews, shortening their onboarding time by 2 weeks.
- Designed and delivered two BFF/backend applications end-to-end via spec-driven development (SDD) with a 3-person team, using AI tools (Claude Code, Windsurf, Codex) to scaffold code from specs and cut delivery time by 30-40%.

AKDev Group | Software Engineer

Minsk, Belarus | 08.2018 - 03.2021

- Built and customised a WYSIWYG editor (React, Laravel) for authoring articles and online school lessons.
- Architected a real-time ship monitoring dashboard (Node.js, Express, PostgreSQL, WebSockets) displaying live telemetry data for 50+ vessels, used daily by operations teams.
- Implemented trial-account functionality, lifting conversion rate by 2% within the first quarter post-launch.
- Contributed across React, Vue, and Laravel codebases in a fast-paced startup environment, collaborating closely with product and design teams to ship features on tight release cycles.

Additional / Freelance experience

Outlier, Alignerr, Preply | Freelance AI Trainer & Prompt Engineer *Remote | 03.2025 - Current*

- Evaluated and ranked LLM outputs for code-generation tasks across multiple AI training platforms, contributing to model accuracy improvements used by leading AI labs.
- Designed and refined prompt engineering workflows for technical/coding evaluation tasks, improving annotation consistency across a distributed reviewer team.
- Delivered 300+ hours of one-on-one JavaScript/React tutoring via Preply, helping students progress from fundamentals to job-ready portfolio projects.

Education

Belarusian State University *Minsk, Belarus | 09.2016 - 07.2020*

B.Sc. in Mathematics and Mathematical Cybernetics

Coursework: algorithm design, data modelling, statistical analysis, and computational systems — foundation for analytical problem-solving in software engineering

Focus: advanced mathematical concepts, statistical analysis, computational techniques, providing a robust foundation in quantitative reasoning and problem-solving.

Key skills: data modelling, algorithm design, systems analysis, along with microelectronics and both high-level and low-level programming languages, preparing me for complex analytical challenges in various domains.

Languages

Russian — Native

Polish — B1
